2.45	'Making a Difference: Networks in Action' followed by Q & A Session. Session led by Liz Blackman, Senior Programme Manager, NHS National Services Scotland			
	Managed Diagnostic Networks are defined as co-ordinated groups of health professionals that support diagnostic services to continuously improve service delivery in order to ensure equitable provision of high quality, clinically effective services. In this session, you will find out about their five-year vision for the main laboratory disciplines and the difference they have made through collaborating across NHS Boards. This will be delivered as an interactive session so we are looking for your suggestions on future priorities.			
	Scottish Pathology Network (SPAN) Jackie Walker , Head of Technical Services, NHS Greater Glasgow & Clyde	Scottish Clinical Biochemistry Managed Network (SCBMN) Ian Godber , Clinical Lead, NHS Lanarkshire	Scottish Microbiology and Virology Network (SMVN) David Ashburn , Department Manager, NHS Highland	Haematology and Transfusion Scotland (HaTS) Sonja Wright , Clinical Scientist, NHS Grampian
