

# NES Role in Supporting Progression

Tues 2<sup>nd</sup> Feb 1030-1040

Thurs 4<sup>th</sup> Feb 1430-1440

## Would trainees recommend their training to others?

# Definitely 65%

# Covid impact – n~40 salaried trainees April 2020 (60% response)

## Are you working from home?

# Covid impact – n~40 salaried trainees April 2020 (60% response)

## Is your training plan affected?

# NES quality monitoring

Includes a step that enquires about progress

This is specific to the trainee and not an invitation to a “cohort” survey

We follow up to try and maximise responses

# Annual review of Competence Progression (ARCP)

Uses an *MS Form* to ask four basic questions of supervisors:

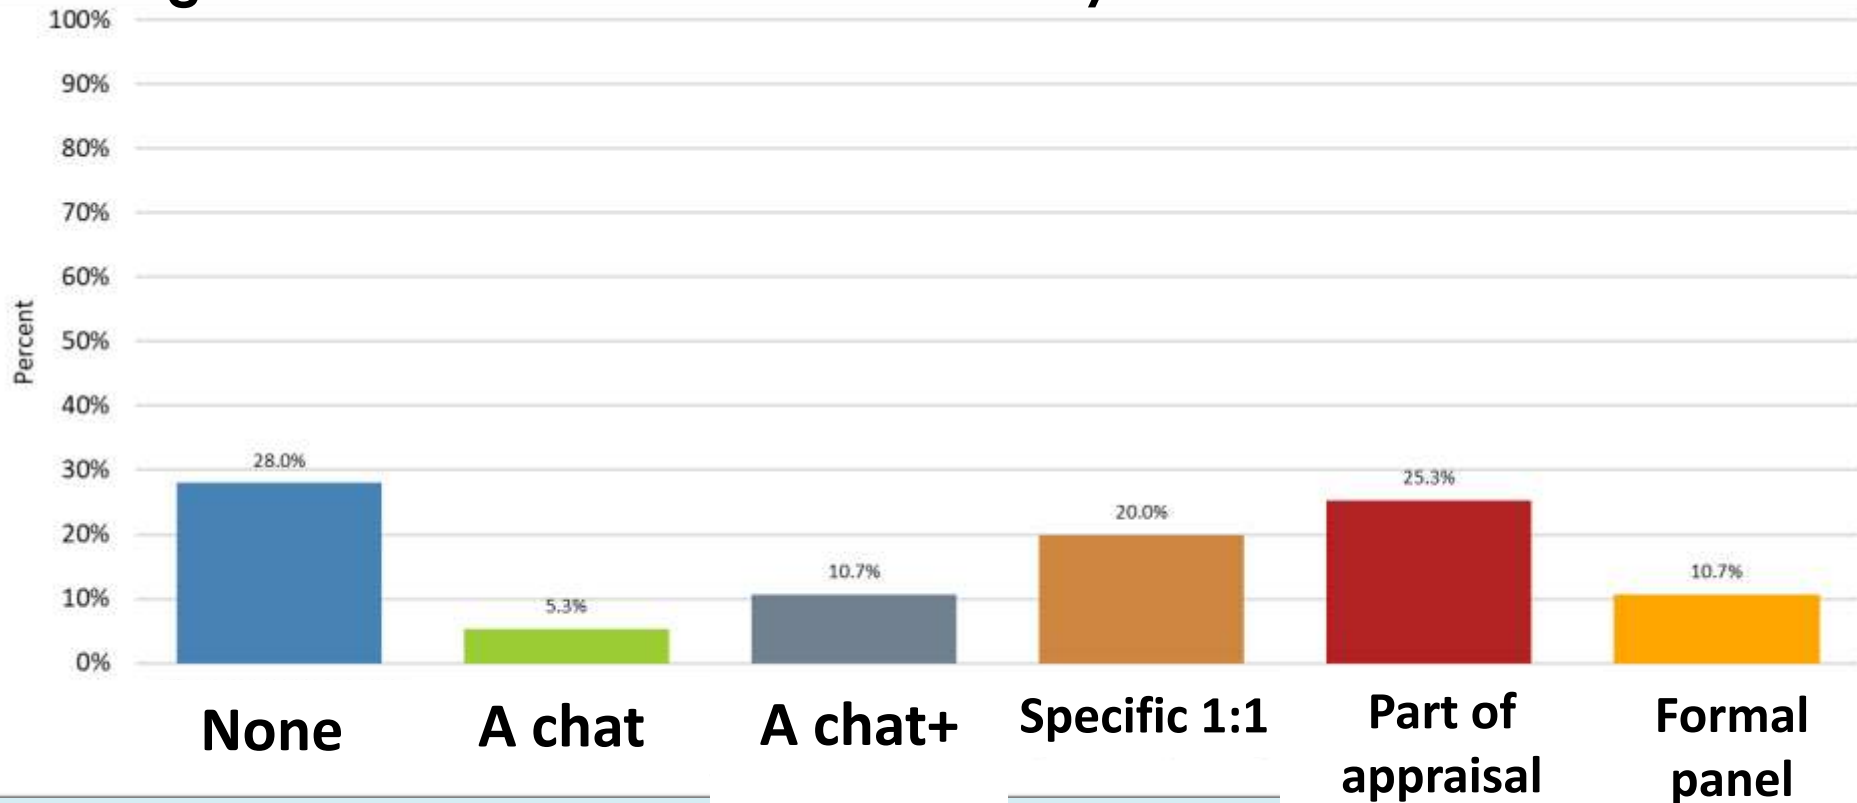

- Rate the progress
- Periods of “out-of-programme” (OOP)
- Anticipated OOP
- Confidence that will complete on time

# Doing the ARCP

- We don't prescribe how it is done...
- Requests to all training number holders one year in.
- A panel
- A 1:1
- Part of a wider appraisal...

# Survey 2020

Have you undergone an Annual Review of Competency Progression or formal review in the last year?

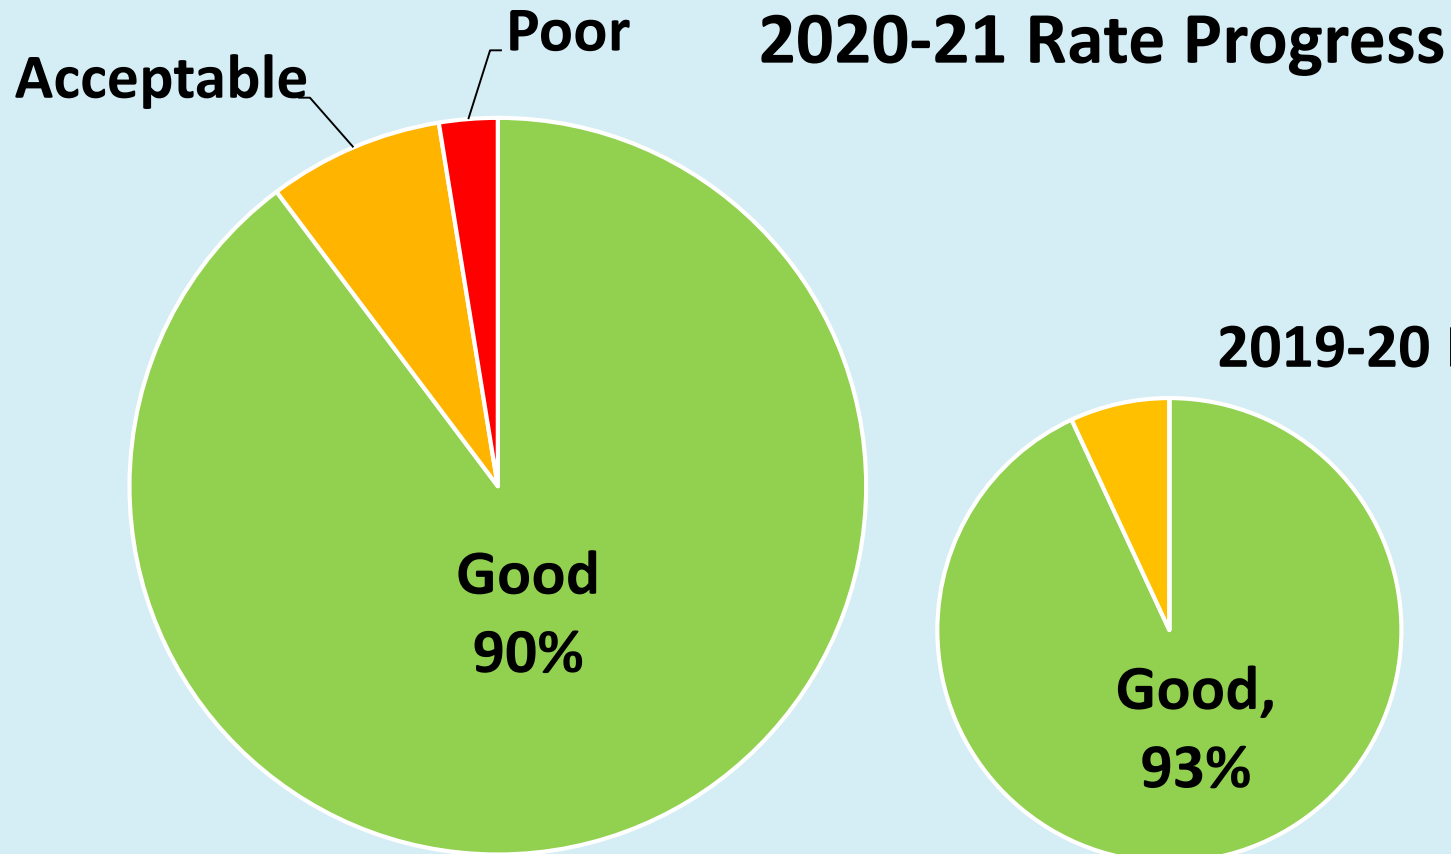

# Outturns

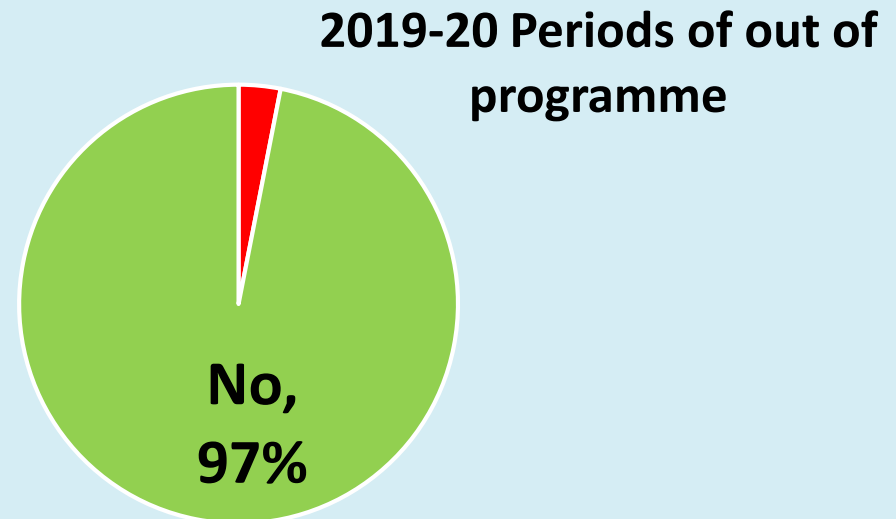

- 2019-20 ~ 95% response, 130 returns
- 2020-21 – **in progress** @20/1/21 ~ 55%

# ARCP outturn as at 20-1-21 n=78

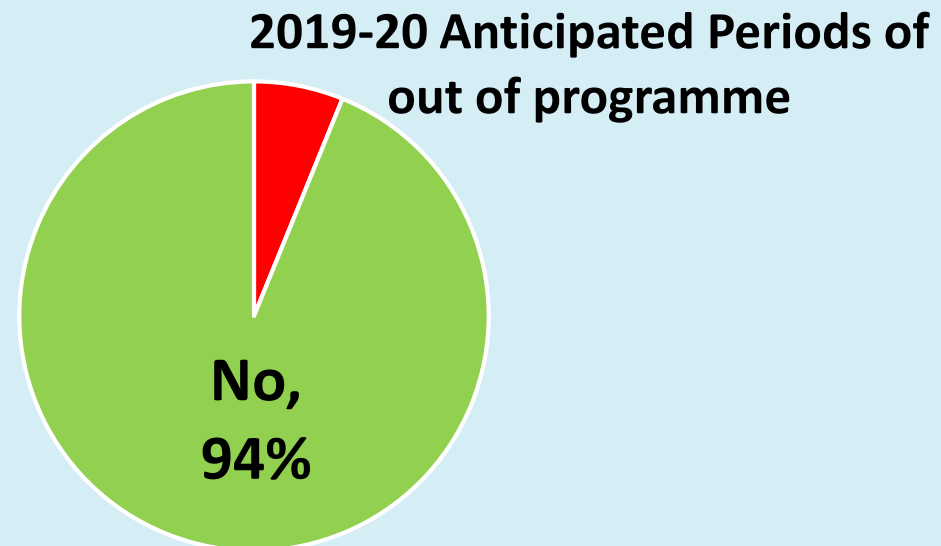

# ARCP outturn as at 20-1-21 n=78

## Periods of out of programme

# ARCP outturn as at 20-1-21 n=78

# ARCP outturn as at 20-1-21 n=78

# Influences: a clear plan?

# Influences: a sign-off?

# Influences: feedback?

# Next steps

- Contact with eligible trainees & supervisors for a progression declaration
- Publication of outturn in our Spring Annual Report for NES Healthcare Science
- Exploring the possibility development of some training resource for ARCP / Progression – interested to hear you ideas
